

Y18

DESCRIPTION

A new facelift for the Yole 18. This boat has been sold on all continents and won titles in all championships. Comfortable in leisure as well as in competitive rowing, its versatility makes it an essential asset in the sport of coastal rowing. Its remarkable stability has delighted many rowers, both beginners and advanced.

The Yole 18 returns with a new design and new equipment, in a club or carbon competition version. Sculpted like a warhead, the new Y18 will seduce you with its rowing comfort and meet the slightest of your requirements while bringing you the same stability that made it successful. It will get you from leisure practice to competition without you ever getting tired of it. Watertight caissons ensure unsinkability and provides better rigidity to the whole boat.

VERSION CLUB

Realization by wet way or in contact / soric sandwich + expanded PVC / epoxy glass, partitions and fills.

VERSION CARBONE

Wet or contac production, soric sandwich + epoxy carbon PVC / carbon partitions and reinforcements
